DBQ Organizer

Prompt: What was the response to the spread of Influenza in the early twentieth century?

Directions: Name 2-3 categories of responses to the spread of influenza that are given by the documents you analyzed. Group your documents into these categories

| | |
|-------------------|--|
| Category A | |
| Category B | |
| Category C | |

Directions: In 1-2 sentences, write a clear and organized thesis that responds to the prompt and mentions your 2-3 categories (don't go into detail: that's what the body paragraphs are for)

| | |
|---------------|--|
| Thesis | |
|---------------|--|

Directions: List the documents that fall under each of your categories. (*Hint: If you do not have an even or equal number of documents for each category, you should find more docs*)

| Category A | Category B | Category C |
|-------------------|-------------------|-------------------|
| | | |
| | | |
| | | |
| | | |

Name:

Date:

Directions: For each of the documents you are using, explain in a sentence what information it provides. In a second sentence explain how the document supports your category response.

| Doc # | Category | Sentence |
|-------|----------|----------|
| | | Explain: |
| | | Support: |
| | | Explain: |
| | | Support: |
